

NZSVET Newsletters | April 2026

Healthcare Level 3 – Industry Placement Underway

Our Healthcare Level 3 students have hit an exciting milestone — all eight of them began their 17-week industry placement in the third week of April!

Now working in residential care facilities, they're getting stuck into real healthcare environments, applying what they've learned and building the kind of confidence and professionalism that only comes from hands-on experience. From clinical skills to patient care, they're doing the mahi — and we couldn't be prouder. We can't wait to hear how they get on over the coming weeks!

Healthcare Level 3 – Inspiring Visit to the All Blacks Experience

If you're going to draw inspiration for a career in healthcare, the All Blacks Experience turns out to be a surprisingly perfect place to do it.

Our Healthcare Level 3 students visited this iconic interactive exhibition and came away thinking about far more than rugby. Themes of teamwork, resilience, and relentless

commitment to excellence sparked some really thoughtful conversations about what those same values look like on a hospital ward or in a care home. Cultural pride, professional identity, and personal growth all in one outing — not bad at all!

English Micro-Credential – Learning Beyond the Classroom

Our English Micro-Credential students swapped the classroom for something a little more wild — a visit to Auckland Zoo!

It was a great chance to practise English in a genuinely fun setting: chatting about animals, exploring exhibits, and learning about New Zealand's conservation work. There's something about being out in the world that makes language click in a way worksheets simply can't, and the students rose to it. A brilliant day all round.

A Farewell to Our Japanese Visitors

In April, we were delighted to host a wonderful group of students from Japan as part of their 11-day cultural and educational exchange at NZSVET.

During their time with us, our visiting Japanese students engaged in English classes, explored Auckland's key attractions, and experienced Kiwi culture firsthand. It was a pleasure to see them build confidence, form new friendships, and make the most of their time in New Zealand.

We would like to thank the group for their enthusiasm and positive energy—they were a joy to host. We wish them all the very best in their future studies and hope to welcome them again one day.

We're also excited to share that the next group is expected to arrive in late July—stay tuned for more updates!!!
